

60 and **EXPEDI**

Drive quality.You see it, feel it, hear it. Quality matters.
And Ford delivers. In fact, Ford is in a dead heat with Toyota when it comes to quality.¹⁰

Drive green.The new Flex Fuel V8 engine on Expedition and Expedition EL runs on gas, E85 (85% ethanol and 15% gas), or any combination of the 2.

Drive safe.

Both Expedition and Expedition EL received 5-Star ratings⁹ in the government's frontal and side crash tests for the 2008 model year.

Drive smart.

Stay in touch and manage your music on the go with our available, exclusive Ford SYNC® voice-activated, customizable media system?

To learn more, visit fordvehicles.com

It's just so **Easy** to live with.

- A. Expedition EL gets its own unique cargo organizer to help you keep all that extra space behind the 3rd-row seat neat and tidy. Use the simple panel divider to split the space in whichever direction your cargo necessitates.
- B. Available power-deployable running boards automatically extend when you open a door and retract when you close it.

 They pair well with our available power liftgate that raises and lowers at the push of a button on your key fob.
- C. Warehouse shoppers rejoice. The cavernous expanse you see here is no less than 130.8 cu. ft. of cargo space behind the 1st row inside Expedition EL. That's 22.5 more cu. ft. than Expedition's maximum cargo capacity. And it's the biggest difference between them. Note the flat loadfloor—standard on both Expedition and Expedition EL. It's created by our exclusive Cargo Mode, which allows you to position the folded 2nd-row seatbacks in alignment with those of the 3rd row, making it a breeze to transport long, flat items.
- D. Get packing at the touch of a button with our available PowerFold™ 3rd-row seat (standard on Eddie Bauer, Limited and King Ranch®). Chevrolet Suburban and GMC Yukon don't offer anything like it. In fact, their 3rd-row seats have to be removed from the vehicle to provide similar cargo space. With our exclusive PowerFold feature, you'll be back on the road in a flash. And thanks to valuable standards like 2nd-row audio and climate controls and best-in-class³ 3rd-row leg room, your passengers will be happy to ride along.
- E. Limited and King Ranch feature heated and cooled front seats in addition to new heated 2nd-row seats. These front seats are optional on Eddie Bauer as well.
- F. Our CenterSlide™ feature on the standard 2nd-row 40/20/40 split-folding seat allows you to pull the center section of the seat forward almost 11″ for easy access from the 1st row. It's perfect for keeping little ones nearby, yet still properly secured in a child-safety seat.

It makes every drive so much

More Fun.

A. New for 2009, the available voice-activated Navigation System features the same sophisticated speech-recognition software as Ford SYNC, so control couldn't be easier. Adding more fun to your ride, the system now includes a Jukebox function for managing your music. With nearly 10 gigabytes of storage space, you can rip entire CDs or just your favorite tracks (up to 2400 songs). Then, thanks to the voice activation, listening to your songs is as easy as saying the name of the artist you'd like to hear.

- B. The available Navigation System's "Home" screen displays photos you've stored on the hard drive. And you can play DVDs on the 6.5" screen when Expedition is in "Park."
- C. Available SIRIUS® Satellite Radio offers over 130 channels.

 New with the available Navigation System this year,

 SIRIUS Travel Link™ can help
 you access: lowest fuel prices;
 real-time traffic with speed,

 TRAVEL LINK™
- flow and incident information; current and forecasted weather; sports scores (in-game and final) and schedules; plus local movie listings and showtimes.
- D. When the available Navigation System detects an incident ahead, it offers you alternate routes. In "route guidance" mode, it even pronounces upcoming street names for you.
- E. The optional Rear-Seat DVD Entertainment System includes a remote control and 2 sets of wireless headphones.
- F. Our available Rear View Camera uses industry-first, factory-installed technology to display the image from a liftgate-mounted camera in your rearview mirror. Better than having eyes in the back of your head, it's standard on Limited and King Ranch, and available on Eddie Bauer.
- G. Get the fresh breezes flowing with the optional power moonroof, featuring one-touch open, a sunshade and a mini-overhead console with map lights and a storage bin.

It keeps getting more **Secure**.

safest Expedition ever. New for 2009, every Expedition gets our SOS Post-Crash Alert System and a perimeter alarm. In the event of airbag deployment or safety belt pretensioner activation in certain collisions, the SOS system flashes 6 airbags, 3-point safety belts, a Tire Pressure Monitoring System, our SecuriLock® passive anti-theft ignition system, autolocking doors and more, as standard equipment on every model. Expedition is always big on safety.

Ford Expedition and Expedition EL both received 5-Star ratings⁹ in the National Highway Traffic Safety Administration's (NHTSA) frontal and side crash tests for the 2008 model year.
